

Name of Assistance Recipient	Total ARRA funds obligated through an assistance agreement	Project Description
Abingdon, Town of	565,000	Installation of microturbines to utilize methane gas from sludge digestion to produce electricity and the installation of solar panels and geothermal heat pumps (using plant effluent) to produce heat at the Town's Wolf Creek Water Reclamation Facility
Alleghany County	10,000,000	Construction of the new Lower Jackson River Wastewater Treatment Plant and associated Collection System Upgrades
Augusta County SA	337,769	Installation of solar panels, aeration windmills, and generators at various wastewater pump stations and treatment plants throughout the County
City of Bedford	193,561	Installation of an effluent water reuse line from the City's Wastewater Treatment Plant to Brooks Food Group for cooling
Big Stone Gap, Town of	1,349,119	Phase II rehabilitation of the Town's sewage collection system at numerous locations throughout the Town
Cape Charles, Town of	6,076,343	Replacement of the Town's existing wastewater treatment plant with a new 0.25 million gallon per day membrane bioreactor facility providing nutrient removal
Clintwood, Town of	803,985	Installation of a wastewater collection system in the Longs Fork area of Dickenson County
Covington, City of	356,914	Installation of a digester gas energy recovery system at the Town's wastewater treatment plant to heat the digester and produce electricity
Culpeper, Town of	246,310	Improvements to the gas collection, distribution, control, and flare off systems at the Town's wastewater plant digester in order to enable the heating system to utilize digester gas in lieu of #2 oil, thereby substantially reducing external energy usage
Fairfax County	6,500,000	Installation of a water reuse line and associated facilities from the County's Noman M. Cole Pollution Control Plant to the Covanta Energy/Resource Recovery Facility as well as to two irrigation sites
Fries, Town of	180,410	Replacement of approximately 2,700 feet of gravity interceptor along the New River
Henry County PSA	399,540	Installation of emergency generators and associated equipment at seven sewage lift stations throughout Henry County to improve system reliability
Hillsville, Town of	467,346	Replacement of the West Grayson Street Sewer Interceptor and replacement of the Route 58 Sewage Pump Station

Name of Assistance Recipient	Total ARRA funds obligated through an assistance agreement	Project Description
Hopewell, City of	595,368	Construction of an algae based pilot wastewater treatment system for the investigation of its ability to provide tertiary nutrient removal
Lexington, City of	39,765	Rehabilitation of a section of sewer line and associated manholes located in the City
Loudoun County SA	598,000	Installation of an effluent water reuse line from the Authority's Broad Run Water Reclamation Facility to the National Rural Utilities Cooperative Finance Corporation
Loudoun County SA	1,079,169	Installation of a Water Reuse Line to One Loudoun and George Washington University
Lynchburg, City of	18,743,130	Replacement of two sections (Divisions 2 and 6) of the James River Interceptor and separation of the combined sewer system in the 1B4.1 area of the City
Lynchburg, City of	360,619	Disconnection of numerous rainleaders at Randolph College from the combined sewer system and the installation of rain barrels and rain gardens/bio-filters. The project will reduce inflow and associated combined sewer overflows and treat the stormwater through rain barrels and rain gardens
New Kent County	3,917,753	Installation of an effluent water reuse line from the County's Parham Landing Wastewater Treatment Facility to the existing Chickahominy Wastewater Treatment Facility for distribution to several end users
New Market, Town of	3,656,513	New pump station and force main to convey wastewater from the Town of New Market to the Town of Broadway Wastewater Treatment Plant. The Town of New Market Wastewater Treatment Plant will be abandoned
Norton, City of	1,003,090	Phase 2 replacement of the Guest River Sanitary Sewer Interceptor in the City of Norton
Orange, Town of	1,578,032	Replacement of the Spicers Mill Road Interceptor to remove infiltration / Inflow
Pulaski, Town of	1,329,819	Rehabilitation of approximately 9,000 linear feet of the Peak Creek Sanitary Sewer line and associated manholes to reduce infiltration / inflow
Richlands, Town of	2,486,642	Installation of a sanitary sewer system in the Birmingham area of Tazewell County
Richmond, City of	1,558,700	Construction of one combined sewer overflow regulator structure, associated connecting sewers and manholes, and rehabilitation of 3,700 feet of interceptor sewer (CSO 031)

Name of Assistance Recipient	Total ARRA funds obligated through an assistance agreement	Project Description
Richmond, City of	836,000	Construction of one combined sewer overflow regulator structure and associated connecting sewer (CSO #12)
Richmond, City of	2,958,920	Separation of the combined sewer system in the Orleans Street area and the rehabilitation of the sanitary sewer mains in Areas 6-5 and 7-9 in the City of Richmond
Smyth County	781,552	Installation of Phase II of a sewage collection system for the Hall Addition area of Smyth County and a short extension of the Staley Creek collection line
Stanley, Town of	100,000	Rehabilitation of the Town's sanitary sewer system in order to reduce infiltration / inflow
Tazewell County PSA	4,000,000	Installation of a new sewage collection system in the eastern section of the Baptist Valley area of Tazewell County
Warrenton, City of	542,000	Installation of a membrane style gas cover system for the storage and reuse of gasses from the sludge digester at the Town's wastewater treatment plant
Westmoreland County	890,000	Construction of an additional effluent storage tank and additional spray irrigation pump and piping at the County's Coles Point Wastewater Treatment Plant
Wise County	2,074,000	Installation of an interceptor sewer in Wise County along the Guest River and Sepulcher Creek from Esserville to the Stephens Community
Wythe County	1,114,942	Installation of a new sewage collection system in the Grahams Forge area of Wythe County
